

MAGICIAN *francis menotti*

“Very clever stuff!”

Steve Martin

Francis Menotti captivates and charms audiences with original and unforgettable magic. A full time professional since 2000, his career has brought him all across the U.S., to Paris, London, and Stockholm, Sweden. He is a frequent performer at New York’s longest running magic show, *Monday Night Magic*, as well as the famed *Hollywood Magic Castle*. Francis was also honored to perform for President Barack Obama’s inauguration.

Audiences leave with lasting memories of not just stunning magic, but uniquely tailored presentations. Whether headlining for conventions onstage in Las Vegas, or strolling close-up for hospitality suites, Francis artfully blends his experience in stand-up comedy, his education in psychology, and over 25 years practicing sleight-of-hand.

Besides creating magic for his own audiences, Francis invents, writes, and teaches for fellow magicians. This past fall, Menotti’s creativity themed lecture, toured across England. He is headed to Italy this coming May to do the same. Francis also writes for the industry’s internationally top-selling, *MAGIC Magazine* as a product reviewer.

While Francis Menotti’s career has now climbed way beyond its start doing children’s parties, he is nowhere near slowing down. A visionary, he believes in the art form’s potential to playfully challenge the world’s assumptions about what can’t be done. Francis strives to help spark your curiosity, jumpstart your imagination, and reveal its power to transform your dreams into reality. He lives this concept by example, because Francis Menotti is just a guy who is following his dreams.

“Francis Menotti... the future of magic.”

Teller (of Penn & Teller)
